

TEACHING POSITION
(X/M/F)
FOR SPECIAL TASKS

-  Starting summer semester 2023
-  Cham
-  Full time, limited to 2 years
-  Application deadline: 30 November

YOUR KEY RESPONSIBILITIES:

For the Campus Cham, we are seeking support starting from the summer semester 2023 (March) to run courses in the areas of autonomous systems, autonomous robots, and autonomous system algorithms.

Teaching of courses in machine learning and control engineering would also be desirable.

In this context, you will also supervise student groups during internships, term papers, and final assessments.

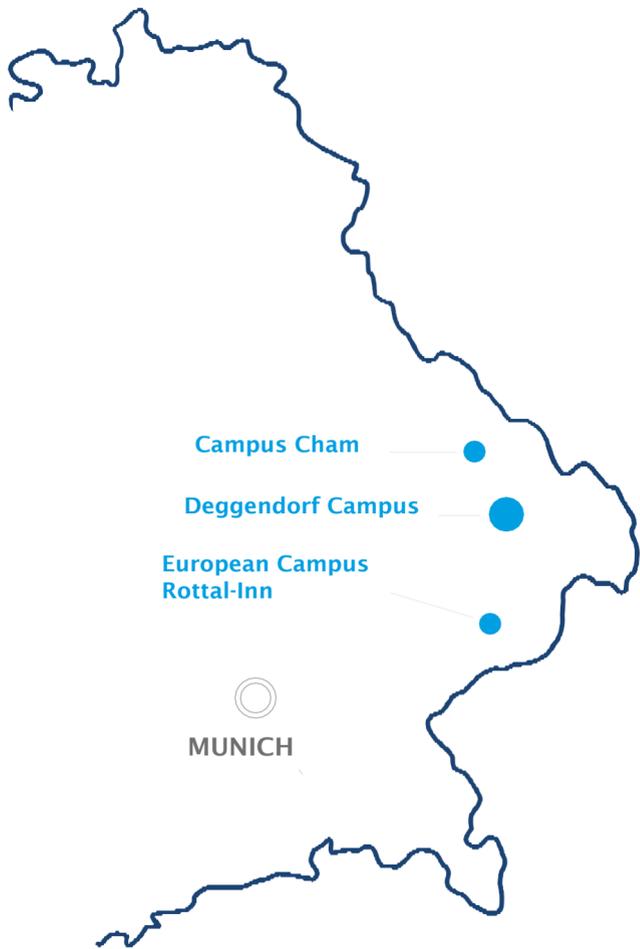

YOUR PROFILE:

You have a university degree (master's/diploma) and a doctorate in the field of control engineering, robotics, mechatronics, or a comparable qualification.

You also have at least 3 years of full-time, relevant professional experience outside the higher education sector. We require expertise in the field of autonomous systems and robots, as well as autonomous system algorithms. Experience in teaching, as well as knowledge of control engineering, machine learning, Python, and Tensorflow are desirable. As you will be assigned exclusively to international degree programmes, knowledge of German is not mandatory.

Well-rounded applicants will have a good rapport with students, especially those with an international background, good organisational skills, and a self-confident manner.

WORK ENVIRONMENT

DIT is not only the top research and most international institution of higher education in Bavaria, but it is also considered to be the fastest growing. Its foundation consists of eight faculties of business, technology, health and computer science, with a focus on practice-oriented and pioneering teaching and applied research at the highest level. A wide range of support services, such as a regular onboarding event, guarantee a smooth start to your new career. You will also benefit from good transport connections, city and nature in close proximity, with leisure activities to suit all tastes.

The progress and steady growth of our university would be unthinkable without a diverse community – let this dynamic and young spirit of our university family inspire you.

WHAT WE OFFER:

gute
Work-Life-Balance

ein internationales
Umfeld

Vorteile des öffentlichen
Dienstes

CONTACT & APPLICATION

If you are interested in a position at Deggendorf Institute of Technology, we look forward to receiving your comprehensive application containing the **usual documents** (curriculum vitae, certificates, documentation of your career development, and relevant subject-related references) via our application management at www.th-deg.de/stellenangebote.

For **questions regarding the application process**, please contact our HRM team. You are welcome to connect with us via LinkedIn!

In principle, this position can also be filled as a part-time position.

It is remunerated according to the collective bargaining agreement TV-L (E13).

Severely disabled applicants will be given preference if they essentially have equal qualifications, competence and professional performance.

For candidates holding foreign university degrees it is mandatory to submit a certificate evaluation from the Central Office for Foreign Education (*Zentralstelle für ausländisches Bildungswesen, ZAB*) in the course of the recruitment procedure for final evaluation of the recruitment requirements (<https://www.kmk.org/zab/zeugnisbewertung.html>).
